Please Clear Snow From Around Your Fire Hydrant:

If you have a fire hydrant located at or near your property, the Indianola Fire Department is asking that you clear snow away from it. When responding to a fire emergency, every second counts.

Buried or inaccessible hydrants may result in a delay at the scene of the emergency. Your assistance in keeping hydrants clear is greatly appreciated!

Please Keep Your Sidewalks Clear

For the safety of pedestrians, City ordinance requires property owners to clear their sidewalks of snow and ice in a timely manner.

Failure to comply with this ordinance may result in a fine, court costs and/or payment to the City for costs associated with removal.

Holiday Fire Safety

Decorating homes and businesses is a long-standing tradition around the holiday season. Unfortunately, these same decorations may increase your chances of fire.

Following a few simple fire safety tips can keep electric lights, candles and the ever popular Christmas tree from creating a tragedy.

- Don't put your live Christmas tree up too early or leave it up for longer than two weeks.
- Place trees away from heat sources, including fireplaces or heat vents. The heat will dry out the tree, causing it to be more easily ignited by heat, flame or sparks.
- Keep the live tree stand filled with water at all times.
- Use only nonflammable decorations.
- Don't link more than three light strands, unless the directions indicate it's safe. Connect strings of lights to an extension cord before plugging the cord into the outlet.
- Avoid using lit candles; consider using battery-operated flameless candles, which can look, smell and feel like real candles
- Ensure that Christmas trees and other holiday decorations don't block an exit way.
